Special Notice to Business Men. As a salversising paper, the Domosrat is universally regarded as the established medium of Lusiness communication between the buyer and seller; its largely increasing circulation, both at New York Her. home and abroad, offers a favorable of pertunity for a judicious dissemination of mercanule intell'genee. It is also a favorite family j urasi, hence retail doulers, as well as more extensive trades. Herald; and here it is: prople, mechanics and citizens will find its col-

medium des reach. h w that the "Fall (am. 1) Democrat-Richm nl. Anselger-L'nisville 600 peign" is drawing upon ue, we ope they will not f il to learn the facilities our paper affords them, News-Newport.... but at once avail themselves of its advantages, which surpass anything in its former history.

The pre out C byress shows the consequenzes of Sam and Sambo united in the cleelion of Congre men. These two pers nages, unicd Fremont. ara let the Dem cratic party, filed the present has brought the country to the verge of reveluti n. They have adjourned without any approprintles for the supp rt of the army. It is the duty of the Pres dent to see that the laws in Kanser are execut do tut C rgress says be shall not omploy the army for that purpose, or if he do, they shall n t be paid ont of the national treasury. It is saying plainly, that the Pre-ident shad not have the mode to do his constitutional duty. Such an experient has never been recorted t, before in this country; and it may be set down as the beginning of revolution.

One dep riment of the government sitemals to dictate to another its duties. This is not ail; this b ly, the creation of Sam and Sambo, barely forbore to overrise the judicial department, by ordering all indictments for treason to be dismissed : and this when armed men are taking the law in c tor own hands, and attacking towns in large loties, murgering their inhabitants; and phen and and m no. are open'y our oyed in the work of reveinting. To this pass have Know No hing-1 and Abelici niem in the free States brugus the country. We recollect how Kentuckians cake. chuckled over the news of the defeat of lower a c, y a fusion of Sam and his bruther Sambo | littmore man, that, by some miracle or other, Fill-

1854, and that elected the present Congress. It teen vot a from the North, out of one bundre to se mbina on is successful, the Senate will fall and seventy, for the nomination for the Presi before it next, and the South will be an alien in | doney. The Democratic party generally sustaine

any value; that the constitution is no protection; never strong coough to accomplish much; and the and such a party, stushed with complete victory, new party that he has identified himself with, has landmark our fathous set up. The trinmph of the weaker than the old Whig party by far. Democratic party in the free States will prevent first step has been taken, and there is no telling

For many years the Democracy of the North have held this anti-slavery crusice in check. The same men and the same party that have performed this patriotic dutg. For a quarter of a conhave staked their political fortunes in the war with this fell spirit of fenattelem. They have ollead me it before, and are doing the same service now. If the ship of State escapes the breakers in als erisin the honor of saving it will belong to them. Other parties in that region not only give he addistance, but are, with their votes and influence, siding the enemy.

get up a very extensive bill of fare from a very the country, and will have it decided. email plece of meat. Their skill has, however, been tasked to its utmost in the present instance, and their industry has been rewarded with but indifferent success. To make a consistent Know-Nothing out of an anti-Mason, to maunfacture the writer of the Eric letter into a safe depository of Southern rights, is rather beyond their manu actaming powers, great as they unloabledly are. Some new process in moral chemistry must be discovered before this feat can be accomplished. His Southern supporters are damb as to his Erie letter. They have no excuse or apology to offer for its rent me is, for it admits of none. He then avowed sentiments which even Hale and Giddings have since abandoned-he was then in favor of "Immediate legislation for the abolition of slavery in the District of Columbia"-worse than this, he was the advocate of a law of Congress forbidding. the slavebolder of Kentucky from carrying his slaves into another slave State. If any Fillmore editor has the hardihood to deny this, let them, il they dire, republish the Eric letter, along with their denial.

But we are told that Mr. Fill more, when President, did not carry out these sentiments and views in action. He had no epportunity of carrying them ont-no such laws were ever presented to him for his spproval.

But, suppose we concede all that his friends claim for him while President, what does it prove? Simply, that he is a man of war, taking shape and form from the last hand that is laid upon him-a chameleon, taking his bue from surrounding objects. At Erie, among the Abolitionists, we find him an ultra negro-worshipper. But when snrrounded at Washington by such men as Clay, and Webster, and Calhoun, his own opinions, or, as he calls them, "long cherlehed prejudicer," gave way

His party or faction may go off into fits of admiration of their idol, and expect miracles in belief of their favorite; but the rest of mankind justly regard Mr. The supporters of this aminble old gentleman Fillmore as a very common individual, of whom have been so assiduously ongaged in endeavoring little is to be expected. It seems as if the cause of the Fremon party were accursed by every mark of folly that could be fastened upon it. Brooks's assault upon Summer has made a large part of their capital but they have put up a man for President who once assault d, in the ante-chamber of the Senate, a Senator, for words spoken in debate. Our readers will remember that, during the few months that Fremont was Senator, a bill for the settle ment of California claims was before the Schate Foote, of Mississippi, with his usual impeluosity denonneed the bill as disgraceful to the legislation of the country. For this, Fremont met him in the anie-chamber, denounced and struck him, and subsequently challenged bim. It was settled without a resert to a due!, but not by the forbear ance of Frement. Friends interfered and etopped the affair. Now, what are these saints about Brooks, who is not a candidate before them, and does not ask their suffrager, did asrault Summer and that is one of the horrors to be shricked about, as a crime of the whole Democratic party but they support Fremont, guilly of the same ofcense-making an assault upon a Senator for words spoken in debate. Wonder of these hypoerites suppose that their absurdity can be concealed from men of rease. The development of Fremont's record in California is a most disroputable affair; for which we have seen no explana tion. We doubt if such fraudulent pecuniary

transactions can be found in the history of any man connected with the United States service. We do not suppose that this Black Republican party will be at all influenced by such facts; but that they will not, is proof of their fanaticism or

depravity. The Abolitionists down East are about to the ontside pressure, and he did not veto the starting a new theory of the human race. The respectability of Fillmore's adminisration, under the guidance of Webster and Clay, has given him a reputation that is not his own. We have seen that neither he nor his party exc. claim much credit for the compromise measures. Had it not been for the Northern Democracy, there measures would never have been passed, or susarned after they were pasted. Mr. Fillmore bimelt is one of these lacky hopby riders that become .amous by accident. He was once a Democrat out when anti- dazonry came along, he mounted that hobby and rode it down. He then mounted the auti-slavery hobby, and rode it into Congress, and in o the Vice I'c sidency. Finding it rather lam , he got astride of the Union hobby, and tried that with Donelson behind. But in the mosn ime, by the favor of Augustus A lolphus Saveggs. he became a full-blanded Know-Nothing, and drested in the uniform of the brethran, he mourts the American hobby, and is riding the poor denkey, boot and spur, in full chase after Presidential nonois. If so, who is he?

If they have no candidate, will be give us the eason why they bave not?

One of his correspondents, not lorg since, delered that Indiana would give Fillmore fifteen thousand majority, and the editor indersed the statement. Is it not very strange that a party tevice so sweeping a maj nity in the State ch uld so without a candidate for Governor and other State (fileere?

A Congressional election comes off in Indiana in October; the Abelitichists and the Democrats have and their candidates in the field for months. where are the Know-Nothing candidates? Not one to be heard of in the whole State. What a virtuous horror of office thise Indiana Knew-Nothings must have, that, with fifteen thousand majority in the State, they do not present the tame of a single candidate for any chice, from Constable up to Governor. We would advise them to cross the breed with Kentucky Know-Nothings, and we think the next generation will not ow so much aversion to office-holding.

1- The Louisville Journal quotes a statemen nade by Humphrey Marshall, that "seven if nor ten of the Southern States, would vote for Fillnore." Marshall "stakes his reputation upon the assertion!" And the editor of the Journal als: stakes hie reputation, in support of Marshall. He says: "the people of the South are beginning to find out that Buchanan has no strength at the North, and even Old-Line Democrats are coming out for Fillmore." Is it possible that any same man, of any party, can read such assertions, and afterwards attach any credit whatever to any statement made in the columns of such a paper "Old-Line Democrats are coming out for Fillmore." Cholera is always preceded by Diarrhes or Dysentery; herefore, if the above remedy is at hand to be taken in eason, no one need stand in the least fear of that eadful scourge. Try it and be convinced that at last a medicine is found which proves itself both safe and sare.

Let no traceler be so impredent as to go South or West vithout it, for many hours of pain may be saved, and also much expense, and, most valuable of all, many preclouslives, if this medicine is at hand.
